

Marie Skłodowska-Curie Actions (MSCA-IF) – Deadline September 2016

Information for Part B of the Proposal

The information provided below should be used to help you complete Part B, Section 5 of the MSC-IF proposal. Please use your own wording but ensuring that the data provided below remains the same (statistics).

5. Capacity of the Participating Organisations

All organisations (whether beneficiary or partner organisation) must complete the table below. Complete one table of **maximum one page for the beneficiary** and **one page per partner organisation** (min font size: 9). Experts will be instructed to disregard content above this limit.

The Chancellor, Masters & Scholars of the University of Cambridge

<p>General Description <i>*A short description of the University with further details and expertise by the Department/School.</i></p>	<p>Example of how to describe Cambridge: The University of Cambridge is one of the most renowned Research /Higher Education Institute and is frequently ranked amongst the top 5 in international academic rankings such as ARWU and Shanghai Ranking. It has a long standing history of academic and scientific excellence backed up with rich culture, learning, research and creativity. Many affiliates of University of Cambridge have won Nobel Prizes for their significant advances. Cambridge University is also a major participant in European projects and is one of the top recipients of FP7 funding. Other common facility, such as the University Library is a major scholarly resource and it holds approximately 8 million items. <i>*(University Library information, may be used if relevant to your proposal. Department should add information relating to current and recent grants held by Department/ School/PI -- especially include those grants which might have started in the last 6-12 months.</i></p>
<p>Role and Commitment of key persons (supervisor) <i>Including names, title and the foreseen extent of involvement -in percentage of full-time employment - of the key scientific staff who will be involved in the research, training and supervision</i></p>	<p>To be completed by PI/Fellow as this is 'specific' to the project. <i>*(Including names, title, qualifications of the supervisor and other members of staff [preferably noting their role] who will be actively involved with the department.)</i></p>

<p>Key Research Facilities, Infrastructure and Equipment <i>Demonstrate that each team has sufficient facilities and infrastructure to host and/or offer a suitable environment for training, supervising the research and transfer of knowledge</i></p>	<p>To be completed by Department as this is a 'department specific' question. Note -However that UCAM is the host institution, so reference to facilities to be used by the IF which are in other departments should also be made. <i>*(Demonstrate that the team has sufficient facilities and infrastructure to host and/or offer a suitable environment for training and transfer of knowledge to recruited Researcher.)</i></p>
<p>Independent research premises? Please explain the status of the beneficiary's research facilities – i.e. are they owned by the beneficiary or rented by it? Are its research premises wholly independent from other beneficiaries and/or partner organisations in the consortium?</p>	<p>Yes – Cambridge facilities are all independent. <i>(If research facilities are being used during a secondment it may be worth noting that these too are independent – if they are.)</i></p>
<p>Previous Involvement in Research and Training Programmes Detail any (maximum 5) relevant EU, national or international research and training projects in which the partner has previously participated</p>	<p><i>Department should add information relating to past grants held by Department/School/PI -- Mention total number of grants held by the department and demonstrate maximum five grants which are specific and relevant to the application.</i></p>
<p>Current involvement in Research and Training Programmes Detail any relevant EU, national or international research and training projects in which the partner is currently participating</p>	<p>The University of Cambridge is presently involved in 258 Horizon 2020 projects. This total consists of 133 Marie Skłodowska-Curie Action grants (including 102 Individual Fellowships), 68 ERCs and 57 other EU funded projects. <i>*(Department should add information relating to current grants held by Department/School/PI.)</i></p>
<p>Relevant Publications and/or Research/Innovation product</p>	<p>To be completed by department/PI. (max. 5 publications, 3 for partner organisation)</p>

Please ensure the final submitted table is maximum of one page.
